DESIGN PROCESS

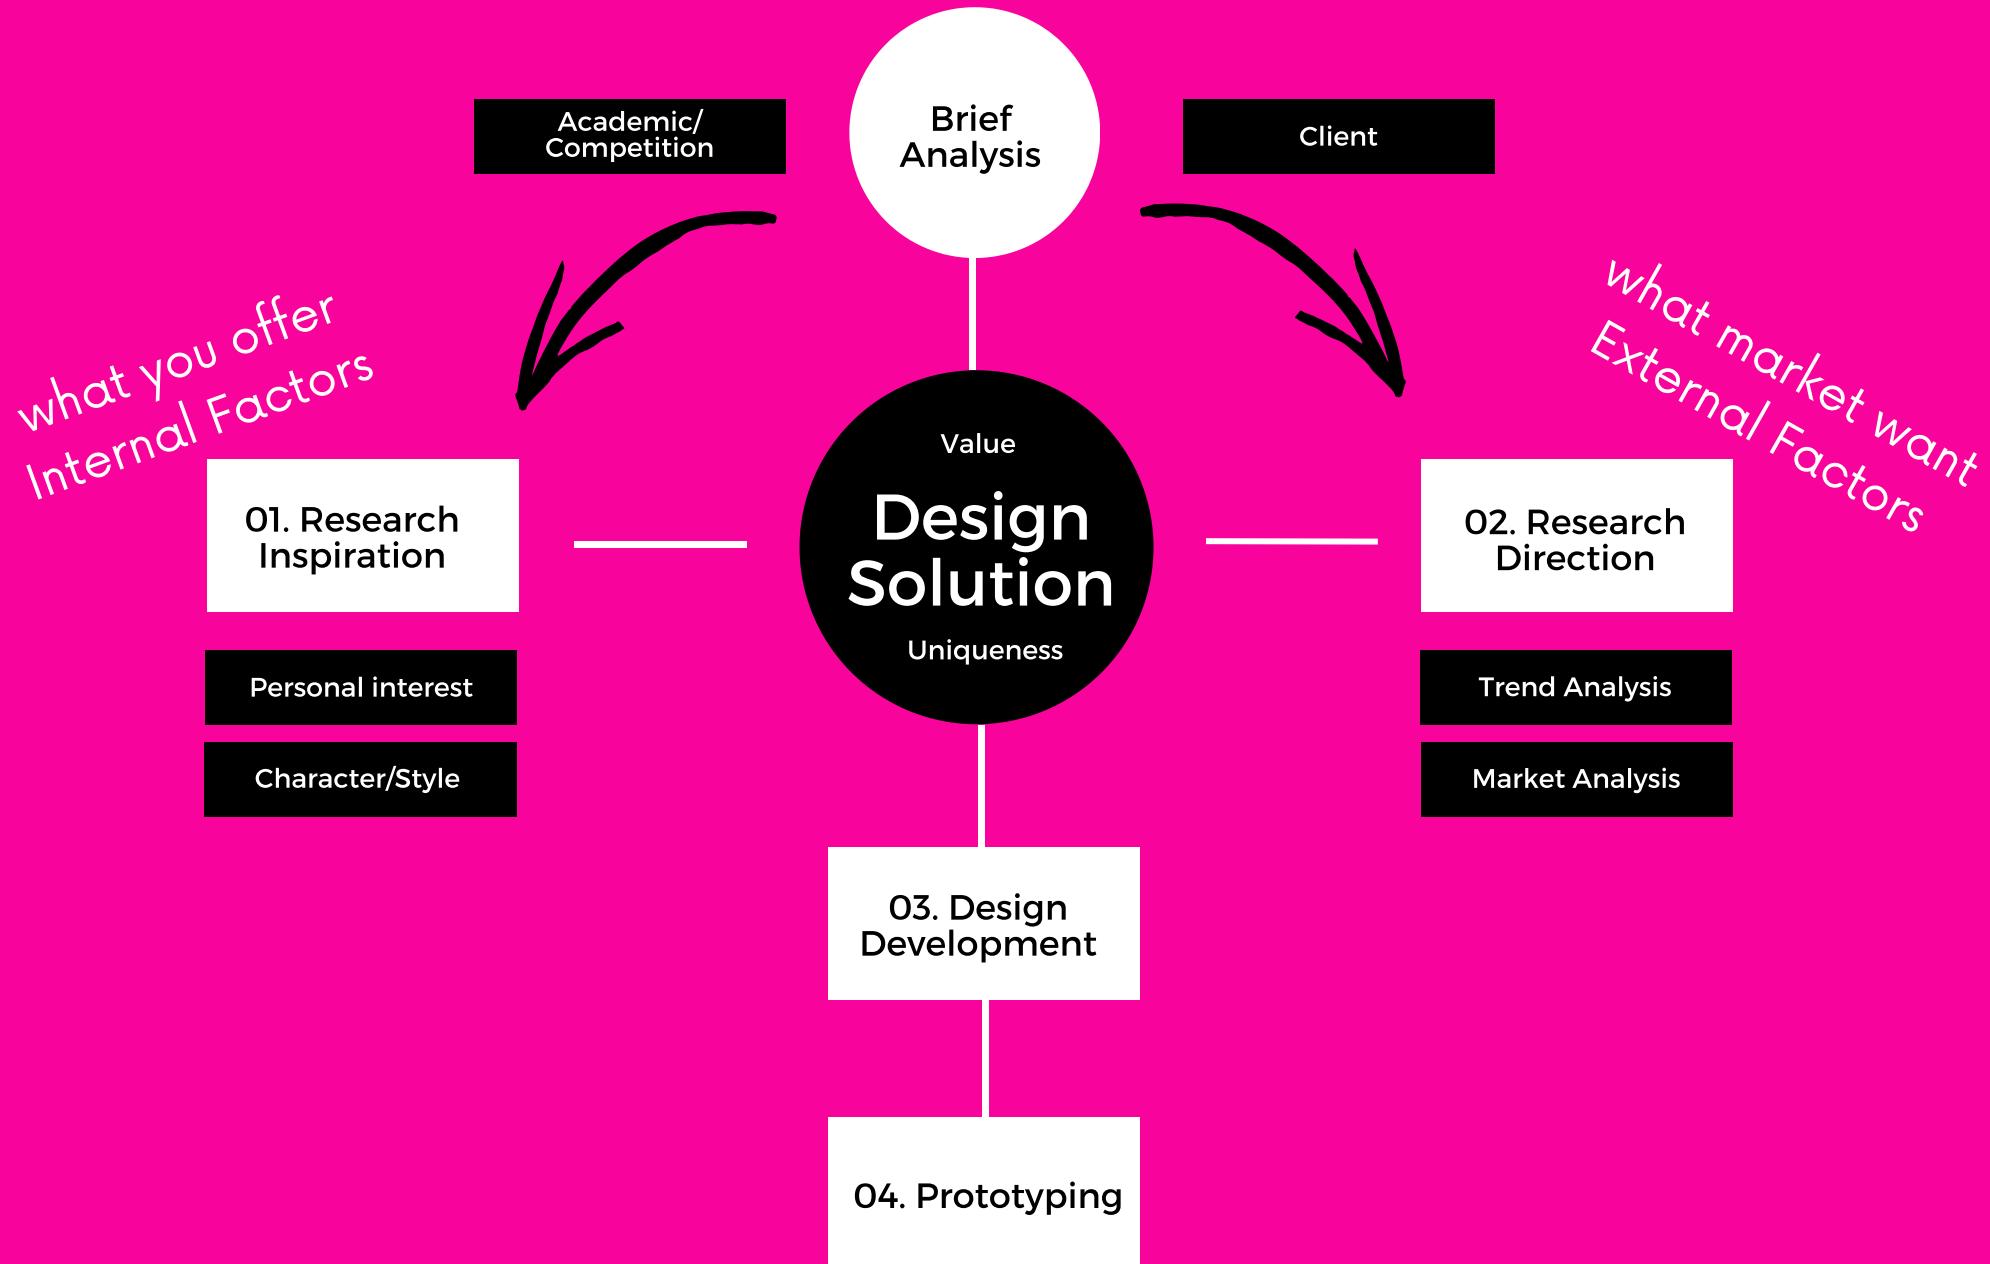

Proses desain secara makro dirumuskan oleh Jonas (1996) sebagai sebuah siklus yang berisi Analisa – Proyeksi – Sintesa, siklus tersebut juga merupakan adaptasi dari teori Siklus Belajar Kolb (1984).

Jonas (2007) kemudian mengembangkan kembali siklus makro proses desain tersebut menjadi sebuah tahapan mikro proses perancangan, sebagai berikut:

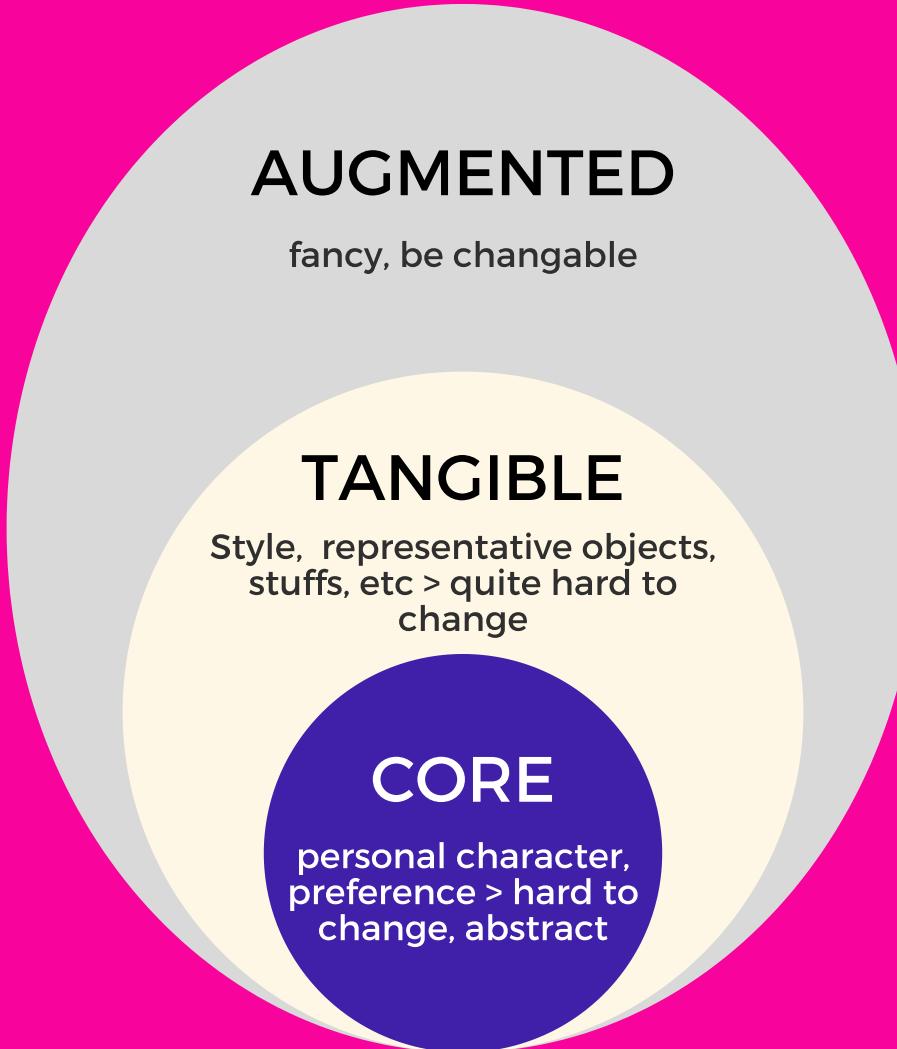

1. Penelitian; yaitu terkait dengan data-data yang perlu dikumpulkan, misalnya data-data pustaka maupun data faktual yang berasal dari observasi.
2. Analisa; yaitu terkait dengan bagaimana menginterpretasi data tersebut serta mengevaluasinya sehingga kemudian menghasilkan daftar ketentuan akan hal-hal apa saja yang perlu diperhatikan.
3. Sintesa; yaitu pemahaman akan situasi atau gambaran luas suatu masalah desain tersebut sehingga menghasilkan sebuah solusi desain.
4. Realisasi; yaitu pelaksanaan dari solusi desain tersebut.

APAKAH ADA HAL-HAL YANG AKHIR-AKHIR INI ANDA SUKAI?
APAKAH ADA HAL ATAU BENDA YANG MENJADI KESUKAAN ANDA DAN SERING BERUBAH-UBAH?

APAKAH ADA WARNA ATAU PRODUK ATAU HAL-HAL KESUKAAN YANG BERWUJUD YANG ANDA SUKAI DAN SULIT BERUBAH?

APAKAH ADA KARAKTER YANG TIDAK BERUBAH DARI ANDA KECIL? APAKAH ADA SESUATU YANG SELALU MEMBUAT ANDA MERASA SENANG ?

Phase 3

PLANNING & RESOURCING:
PRIMARY AND SECONDARY
RESEARCH
WEEK 4 - 7

Primary Research: Virtual Observation

Penelitian primer yang dilakukan pada mata kuliah Fashion Design 1: Visual Study adalah melakukan observasi lapangan. Akan tetapi, dengan adanya pandemi covid 19 maka observasi lapangan tidak dapat dilakukan dan digantikan oleh observasi secara virtual.

Saat ini dengan berkembangnya teknologi informasi dan media digital, berkembang pula istilah etnografi digital sebagai salah satu metode baru dalam etnografi. Apabila pada etnografi konvensional, observasi dilakukan dengan turun pada lapangan dan pengamatan langsung, pada etnografi digital, pengamatan dilakukan melalui media sosial, virtual, serta komunikasi yang dimediasi oleh platform-platform digital. (Pink, Horst, Postil, Hjorth, Lewis, dan Tacchi; 2016)

Penelitian primer yang dilakukan pada mata kuliah Fashion Design 1: Visual Study juga dapat dilakukan dengan mewawancara atau melakukan survei kepada target market. Namun dengan adanya pandemi, maka proses wawancara atau survei dapat dilakukan secara daring. Baik berupa survei online, FGD atau wawancara dengan tatap muka (zoom meet, whatsapp, dsb)
